

BRP ANNOUNCES THE REFINANCING OF ITS TERM FACILITY

February 16, 2021

Valcourt, Quebec, February 16, 2021 – BRP (TSX:DOO; NASDAQ:DOOO) announced today that it successfully refinanced a portion of its term loan facility by upsizing its Term Loan B-1 and repaying its Term Loan B-2, effectively reducing both the size and average interest rate of its term facility.

"Less than 10 months after raising our Term Loan B-2 to strengthen our liquidity position amidst uncertainty, we are pleased to have been able to repay that facility using a combination of cash from the balance sheet and an increase in our Term Loan B-1 facility, which carries terms that are much more favourable. Our ability to complete this transaction reflects the strong momentum we have experienced for the first three quarters of our fiscal year and the solid outlook we have for our business," said Sébastien Martel, BRP's chief financial officer. "With our strengthened balance sheet, reduced interest expense, and improved credit rating, we are well positioned to continue creating value for our shareholders through sustained investments in our long-term growth and strategic capital deployment".

Pursuant to this refinancing, the Company increased the amount outstanding under its Term Loan B-1 from US\$1,208 million to US\$1,508 million. This incremental US\$300 million is under the same terms and conditions as the original Term Loan B-1, bearing interest at a rate of 200 basis points over LIBOR with a LIBOR floor of 0.0% and maturing in May 2027. The proceeds of the incremental US\$300 million along with cash from the balance sheet were used to fully repay the Company's US\$600 million Term Loan B-2, which had borne interest at a rate of 500 basis points over LIBOR with a LIBOR floor of 1.0%.

Moody's Investors Service upgraded the Company's corporate family rating from B1 to Ba3, partly as a result of the closing of this transaction and repayment of the Term Loan B-2.
