

BRP ANNOUNCES THE RENEWAL OF ITS NORMAL COURSE ISSUER BID

Marzo 21, 2018

VALCOURT, Québec, March 21, 2018 (GLOBE NEWSWIRE) -- BRP Inc. (TSX:DOO) announced today that its Board of Directors has authorized the renewal of its normal course issuer bid to purchase for cancellation up to 3,625,271 subordinate voting shares over the twelve-month period commencing on April 2, 2018 and ending no later than April 1, 2019, representing approximately 10% of the public float of 36,252,716 subordinate voting shares as at March 19, 2018. As at March 19, 2018, 37,676,327 subordinate voting shares were issued and outstanding. The normal course issuer bid will be conducted through the facilities of the Toronto Stock Exchange (the "TSX") or alternative trading systems, if eligible, and will conform to their regulations. Purchases under the normal course issuer bid will be made by means of open market transactions or such other means as a securities regulatory authority may permit, including pre-arranged crosses, exempt offers and private agreements under an issuer bid exemption order issued by a securities regulatory authority.

Under TSX rules, BRP will be allowed to purchase daily, through the facilities of the TSX, a maximum of 40,216 subordinate voting shares representing 25% of the average daily trading volume, as calculated per the TSX rules for the most recently completed six calendar months. In addition, BRP may make, once per week, a block purchase (as such term is defined in the TSX Company Manual) of subordinate voting shares not directly or indirectly owned by insiders of BRP, in accordance with TSX rules. The subordinate voting shares purchased pursuant to the normal course issuer bid will be cancelled.

The price to be paid by BRP for any subordinate voting share will be the market price at the time of acquisition, plus brokerage fees. In the event that BRP purchases subordinate voting shares by pre-arranged crosses, exempt offers, block purchases or private agreements, the purchase price of the subordinate voting shares may be, and will be in the case of purchases by private agreements, at a discount to the market price of the subordinate voting shares at the time of the acquisition.

BRP has the intention to enter into an automatic share purchase plan with a designated broker to allow for the purchase of subordinate voting shares under the NCIB at times when BRP would ordinarily not be permitted to purchase shares due to regulatory restrictions or self-imposed blackout periods.

Under the normal course issuer expiring March 30, 2018, BRP has purchased 2,954,500 subordinate voting shares at a volume weighted average price of \$46.39. Purchases were effected through the facilities of the TSX and at such times and in such numbers as determined by BRP in accordance with the policies and rules of the TSX. Purchases were also made through alternative eligible trading systems and by block purchases of subordinate voting shares. BRP is allowed to purchase a total of 3,078,999 subordinate voting shares (representing approximately 10% of the public float of 30,789,991 subordinate voting shares as at March 23, 2017). The Board of Directors of BRP believes that the purchase by BRP of its subordinate voting shares could represent an appropriate and desirable use of its available cash to increase shareholder value.
